

MADAGASCAR

Exotic, Fascinating & Unique.

A land of the unexpected, from the wildlife to the curious scenery, the French colonial architecture and the food.

Using my experience from several visits, I have created a very special itinerary combining the best of this fascinating island. We experience **tropical shores, mountain rainforests, spiky limestone tsingy, leaping lemurs** and, especially during **night walks, extraordinary wildlife**. We stay at comfortable lodges as well as a charming colonial-style hotel, have time to walk, explore, meet people, including those working with silk from the golden orb spider, and really experience the country. We dine in good restaurants, picnic in wild places and end our holiday at a luxurious island hotel with its own **private wildlife reserve** and **glorious beaches**.

A country simply not to be missed.
